**ENTITLEMENTS
(Otis ANGB)**

1. Objective. As prescribed in AFI 38-201, Air Force Manpower Determinant (AFMD) System, formerly designated as AFR 8-10, this Air National Guard Manpower Standard (ANGMS) quantifies the full-time manpower requirements to accomplish the tasks described in the Work Center Description (WCD) for varying levels of workload volume.

2. Authority. The AFI 36 and 65-series, formerly the 70, 171, 172, 173, 175 and 300-series of Air Force and/or Air National Guard (ANG) directives contain command policy and procedural guidance for the Entitlements work center. This ANGMS was developed in accordance with procedures outlined for development of single point location standards contained in AFPAM 38-208, Air Force Management Engineering Program (MEP) Processes, formerly AFR 25-5, 16 May 1988.

3. Applicability. This standard applies to the Otis Air National Guard Base, MA Entitlements work center, FAC 1512. This standard only applies to peacetime operations.

4. Standard Data:

- a. Classification. Type III.
- b. Approval Date. 19 Nov 93.
- c. Man-Hour Data Source. Operational Audit (historical record and technical estimate techniques).
- d. Standard Man-Hour Equation.
 - (1) Military Pay: $Y_1 = 15.57 + .1944X_1 + .1561X_2$
 - (2) Civilian Pay: $Y_2 = 32.41 + .6306X_1$
- e. Workload Factors (WLFs):
 - (1) Title:
 - (a) Military Pay: X_1 : The Total Military Personnel Serviced for Pay/Leave.
 - (b) Military Pay: X_2 : The Number of JUMPS/JUMPS-RF Transactions Processed.
 - (c) Civilian Pay: X_1 : A Civilian Pay Account Maintained.
 - (2) Definition:
 - (a) Military Pay: X_1 : The monthly average of military personnel authorized for collocated and geographically separated units (GSUs) serviced by the Military Pay section.
 - (b) Military Pay: X_2 : The monthly average of JUMPS/JUMPS-RF transactions processed.
 - (c) Civilian Pay: X_1 : The monthly average of civilian pay accounts maintained by the Civilian Pay section.
 - (3) Source of Count:
 - (a) Military Pay: X_1 : A Comptroller Workload Report, RCS: ANG-ACX(Q) 8201. Total Military Population Authorized is the first entry in Section I.A.(3).
 - (b) Military Pay: X_2 : A Comptroller Workload Report, RCS: ANG-ACX(Q) 8201. JUMPS-RF Transactions are found at E. in Section I. JUMPS transactions are found at F. in Section I.
 - (c) Civilian Pay: X_1 : A Comptroller Workload Report, RCS: ANG-ACX(Q) 8201. Civilian Pay Accounts maintained are found at B. in Section I.

5. Application Instructions:

- a. The valid man-hour for this ANGMS is 887.10 through 1478.5. This is an aggregation of Military Pay man-hours (Y_1) and Civilian Pay man-hours (Y_2). Extrapolation limits represent the upper and lower man-hour values that bind the applicability range. These limits represent the maximum amount the equation can be extended. Military Pay and Civilian Pay manpower requirements are combined to make efficient use of functional manpower.
- b. Calculate the correct value for each WLF identified in paragraph 4e above. Substitute these values for the appropriate value of X in the manpower equations (Y_1 and Y_2) identified in paragraph 4d. Add the results of the the two equations to determine the total required man-hours.
- c. Divide total required man-hours by the appropriate civilian Man-Hour Availability Factor (MAF) to determine the total manpower requirements.
- d. Refer to attachment 2, AF Form 1113, Standard Manpower Table. Find the column that identifies the number of total manpower requirements, then read up and across the column to determine total manpower by AFSCs.
- e. The AF Form 1113 identifies the aggregate of allowed manpower specialty title and AFSC. The Military Pay and Civilian Pay Branches have been combined to allow more efficient use of the total number of manpower authorizations earned by the standard.
- f. Extrapolation limits for a single location standard are based on +/- 25 percent of the calculated man-hours IAW AFPAM 38-208, formerly AFR 25-5, paragraph 12-23(c).

6. Statement of Conditions. This work center is represented by a combination of Title 5 and Title 32 authorizations. The normal hours of operation are eight hour days, five days a week. There are no other standard of living constraints which affect the daily operation of this work center.
